Individual support for your organisation

This package offers fundraising support on a one-to-one basis as the experienced TripleMinds consultants work with you individually on:

Proposal writing

We have over 15 years experience in writing proposals for public and private donors like USAID, DFID, EC, or foundations both in Europe and the US. You can choose from the following services:

- *Proposal review*: you send us an existing proposal and we add comments in the text on how you can improve and brush up the proposal (i.e. we add comments on the problem statement, the impact-outcome-output formulation, the proposed activities, sustainability, Value for Money, cross cutting issues such as gender or environment, the budget etc.)
- *New proposal*: we write a new proposal for you from scratch (you need to provide us with the basic ideas such as organisational profile, activities or beneficiaries). The page limit is 10 pages.

Donor mapping

In a first step, we ask you to fill in our [prospect research questionnaire](#) (4 pages) which allows us to get a good understanding of your organisation. You are required to fill in details about your organisation (i.e. mission, activities) and which donors you are interested in (i.e. which countries, sectors, types such as foundations, governments etc., grant and donor sizes, nationality of donors etc.). Once received, we arrange a Skype call with you to clarify any open questions. Then we carry out the research and screen ~500,000 donors from various databases, foundation directories, annual reports of similar organisations and other sources. The output is a document with 40 high potential donors for your organisation (app. 20 pages) including: name, address, website, thematic focus and application procedure.

"TripleMinds did a very thorough and concise mapping which identified excellent potential partners, as well as targeted information about each partner that was very much of interest and relevant for us. They also reviewed some of our proposals and identified how we can better present ourselves to partners, how we can more convincingly argue our case."
